

Going on a bushwalk!

Across

5. You might take a pair of these with you to spot birds a long way in the distance
6. These large monitor lizards love to walk through the bush
9. Keep an eye out for this large Australian marsupial leaping past!
10. Another word for a bushwalk – usually long-distance, across country
12. Always remember to pack a bottle of this to keep you hydrated on your walk

Down

1. Be careful not to walk through these fine threads constructed by a spider for catching prey
2. You might hear this Australian bird with a distinctive call that sounds like a laugh
3. Look up high to find this structure made by birds for laying eggs
4. You'll need to wear one of these to stay sun safe
7. Keep your eyes open and wear sensible shoes in case you spot one of these limbless reptiles
8. If you're lucky you might see one of these animals sleeping lazily in a gum tree
11. Listen carefully for the buzzing sound made by this insect which collects pollen and produces honey
